The Mountainside Teen Shelter is a house that provides refuge for kids to live & get advice & care for their troubles. They can stay there from 2 days to 2 weeks & receive counseling on how to cope with the problems that all young people are faced with in today's society. They get out of their own homes & talk through their troubles with their parents & a counselor, targeting returning home with a more positive outlook. When the Windsor County Youth Services approached Mountain Cyclopedia 15 years ago to help them with a fund raiser, we were excited to be able combine our passion for cycling & an event to share with the regional riding community with the potential to be able to support a local organization that can improve the future of these kids. Thanks, in advance, for considering joining us on June 20th for this great event!
